

Wireless Passive PIR Detector (Indoor)

Model #: DSS-P829

Technical Specifications

Model No.

DSS-P829

Wireless Passive infrared detector applies digital dual-core fuzzy logic control processing technology and intelligent analysis algorithms and can distinguish interfering signals and body movement signals effectively to prevent false alarms. With built-in spiral high-frequency spring antenna, it has quite far transfer distance and is environment friendly and energy saving, safe, reliable and easy to install

Power: Two power supply mode

External power adapter or internal battery.

They can be used together and the power adapter wouldn't charge the battery.

External Power Adapter: DC5V

Internal Battery: 2 "AA" Battery

Standby Current: <50uA

Working Current:<25MA

Detecting Range: 4-8 m/90 degree

Wireless Distance: 300 ft (Open Area)

Wireless Frequency: 433MHz

Housing Material: ABS

Working Humidity: <80%

Detector Size: 58*58*89mm

Detecting Range

We reserve the right to modify product design and specification without notice and without incurring any obligation
